## Two Rivers Harbor, WI

### Harbor Features

- Located on the west shore of Lake Michigan about 82 miles north of Milwaukee and about 101 miles from Green Bay, WI.
- Authorization: River & Harbor Acts of 3 Mar 1871, 2 Mar 1907, 30 Aug 1935, 3 Jul 1958
- Deep draft commercial harbor, yet the primary use is recreational
- Project depth is 18 feet in the entrance channel and inner basin and 10 feet in the East Twin River
- Approximately 6,000 feet of maintained federal channel
- More than 2,700 feet of piers and revetments
- The material from lower portions of the harbor is placed on the beach as nourishment. The inner harbor material needs to be placed in an upland placement site.
- Major stakeholders include U.S. Coast Guard, Suzy Q Fish Market, city of Two Rivers and a variety of charter and sport fishing interests.

### Project Requirements

- Approximately 40,000 cubic yards of material are dredged from this harbor on a five year cycle. The lower portion was last dredged in 2009. The community performed minimal dredging in 2012.
- The harbor currently requires dredging.
- The south breakwater requires repairs. The breakwater was damaged during the winter of 2015. Extreme ice conditions caused stone protection on the structure to fail and settle leaving a cantilevered walkway on top of the structure. This is a serious life safety issue as the general public has access to this portion of the breakwater.

### Consequences of Not Maintaining the Project

- Loss of jobs locally
- Loss of recreational and charter fishing in the area

### Transportation Importance

- This project serves as an important Harbor of Refuge and supports charter fishing and recreational navigation interests.
- The local community has established a significant infrastructure around the harbor facilities that generates income from harbor users and visitors to the area.
